

What is S⁴-as-a-Service?

S⁴-as-a-Service offers our customers the flexibility and agility required to operate SAP – *without the capital expense and IT resources associated with an in-house solution.* Let us take on the administrative burden of architecting, managing, and supporting your SAP environment, and allow you to do what you do best – *manage your business.*

S⁴aaS Get the world's best software at an affordable price

Why S⁴aaS?

As a market leader in business application software, SAP helps companies of all sizes and industries innovate through simplification. This best-in-class software is responsible for 74% of the world's transactions. And now your company can be among the best by implementing SAP software. At just \$195/user/month, you will be able to benefit from all of the core functionality that SAP has to offer. That is literally less than the cost of purchasing a Chipotle steak burrito every night for dinner!

How will S⁴aaS benefit me?

Our S⁴aaS solution can assist you with virtually all operations of your business, such as finance, sales, warehouse management, procurement, planning, distribution, and more. For the past 20 years, we have become very skilled in making SAP software work for mid-sized businesses in resource-constrained environments.

We have developed a variety of rapid implementation templates, and our team has perfected proven methodologies. With our S⁴aaS offering, we will host and manage your SAP environment for you. All you will need is a web browser, and we can have you up and running in a matter of weeks.

Running a growing and evolving business is complicated enough, without having to manage IT infrastructure as well. Simplify your life, and allow us to take away the day-to-day operational burden from your laundry list of responsibilities.

The bottom line is that we want to see our customers be successful, and we don't consider ourselves successful until we can make that happen. Call us today to see how S⁴aaS can benefit you, and how we can help you simplify your IT environment.

The **Savantis Group** makes the best business software in the world affordable for mid-sized businesses, by successfully implementing it in weeks, not months or years.

In addition to complete ERP and CRM implementation services, we also offer a transactional content & document management solution, mobile apps, hosting, and other services (such as training, staffing, and technical support). In short, we are your one-stop-shop for all of your SAP needs, and we'll be here to help you every step of the way.

Our Mission is to make the most scalable, functional, and market-leading business software in the world affordable, enabling mid-sized businesses to effectively compete with anybody.
