SAVANTIS
group
PARTNERS FOR VALUE

The **Savantis Group** helps mid-sized organizations to cost-effectively implement and benefit from SAP software. We offer complete implementation services, training and staffing assistance, and hosting and technical support provided through SAP's world-class Application Management Services.

Our Mission is to build longer-term, mutually beneficial True Partnerships with our customers, because we believe these relationships are the only ones worthwhile to be a part of.

We are your one-stop-shop for all of your SAP needs, and we will be here to help you every step of the way.

SAP-as-a-Service (SAPaaS)
Get the world's best software at an affordable price

Why SAPaaS?

As a market leader in business application software, SAP helps companies of all sizes and industries innovate through simplification. This best-in-class software is responsible for 74% of the world's transactions. And now your company can be among the best by implementing SAP software. At just $195/user/month, you will be able to benefit from the core functionality that SAP has to offer. That is literally less than the cost of purchasing a Chipotle steak burrito every night for dinner!

How will SAPaaS benefit me?

Our SAPaaS solution can assist you with virtually all operations of your business, such as finance, sales, warehouse management, procurement, planning, distribution, and more. For the past 18 years, we have become very skilled in making SAP software work for mid-sized businesses in resource constrained environments.

We have developed a variety of rapid implementation templates, and our team has perfected proven methodologies. With our SAPaaS offering, we will host and manage your SAP environment for you. All you will need is a web browser, and we can have you up and running in a matter of weeks.

Running a growing and evolving business is complicated enough, without having to manage IT infrastructure as well. Simplify your life, and allow us to take away the day-to-day operational burden from your laundry list of responsibilities.

The bottom line is that we want to see our customers be successful, and we don't consider ourselves successful until we can make that happen. Call us today to see how SAPaaS can benefit you, and how we can help you simplify your IT environment.
